DESCRIPTION

Milwaukee Hyperwire™ wire brush products offer faster material removal and greater life yet maintain a finer finish. For lighter duty surface cleaning a crimped style cup brush is appropriate. Crimped wire is less rigid than knotted and can get into crevices more easily. Milwaukee offers a full range of crimp and knotted wire cup brushes. This crimp wire cup brush is designed to be used on 9 in. Milwaukee and competitive grinders with 5/8 - 11 threaded spindles. Made from carbon steel wire.

Milwaukee® Cup Brush, 6 in Diameter Brush, 5/8-11 Arbor Hole, Crimped Filament/Wire, 0.014 in Dia Filament/Wire, Carbon Steel Fill, 1-3/8 in Trim Length, 6000 rpm Maximum
